

Vegetable Basket Subscriptions

Vegetable basket subscriptions are more than a delivery of awesome vegetables each week. When you subscribe, you are supporting and sharing in our farm. We all benefit because by supporting a local food system we help the local economy, environment, and community wellbeing.

We ask that you pay the complete subscription at the beginning of the season to help us manage the expenses and risks of growing perishable food. The subscription means you can expect to receive the bounty from our fields each week and we feel better knowing these vegetables will not go to waste. We can devote our time to growing and caring for your vegetables rather than sales and marketing.

Typically, these subscriptions or shares, means you share in the farm adventures. In the short term that will mean social media updates, but we hope by summer we can invite you to visit the farm and see agroecology in action.

- ✓ **Fresh Picked**
- ✓ **Awesome Flavour**
- ✓ **Pesticide Free**

Details

We promise to provide customers with a weekly vegetable basket, containing 8-12 items. This 16-week supply of vegetables will start the week of June 15th and continue until the week of October 5th. The vegetables will be grown using organic methods which includes crop rotations, cover crops, mulches for weed, moisture and fertility management and hand picking of pests such as potato and cucumber beetles.

We promise to provide members with the best quality vegetables from what we grow. We do not guarantee that the vegetables will be free of defects or as uniform in shape as typical grocery store products. Rather, small defects may be common since pesticides are not used. However, if you receive produce that has a large defect, we will apologize and happily replace or refund it, at our discretion.

Every growing season is different and that will affect the yield, taste, texture, and appearance of the products you receive. A cool summer which is ideal for kale, cabbage and broccoli is not ideal for tomatoes, beans, and squash. Our organic farming methods make our crops resilient in the face of drought, but we do not have any protection from a severe summer storm with damaging hail. If a crop fails, we will offer a substitution or refund at our discretion.

Basket contents are non-negotiable; you get what we grow! We will however help with recipes and a preview of your basket contents in our weekly newsletter :)

What's in a basket

You can expect to find between 8 and 12 items in your basket each week, depending on the season.

FAQ's

We don't know how things will be by the first delivery in June, so these questions are answered with the current context in mind:

1. How does delivery work?

- a. We will work out a delivery schedule and route based on the homes the baskets will go to. We will pack the baskets and drop them on your doorstep on the scheduled day and time. A cooler or box should be left out to receive the baskets. We will have a better idea of best practices come June and will update you then. In general, it is best to have a spot that is sheltered from weather and animals for us to deliver to.

2. Can items be added to the basket?

- a. We can't change the vegetables, but you can add other items to the delivery. We will have a webstore soon where you buy pierogis, sausage rolls, beef boxes, burgers and bone broth. These will be delivered with your basket so no delivery fee.

3. What about delivery and vacations, not being home at allotted time, etc.

- a. These aren't an issue within the current situation. But should these opportunities arise we ask that you make alternate arrangements. This could be making sure that the cooler is in place for delivery before you leave home or letting us know about an alternate spot (eg neighbour's house) for the delivery. We can make some accommodations if you let us know well in advance.

We can't wait to share these awesome vegetables with you! If you are ready subscribe, please send me an email. I will reply with an invoice for \$550; last step is an etransfer to moonlightcrofters@gmail.com.
